Description

Between the azure Ionian Sea and the imposing presence of Mount Etna, in one of the most authentic and sought-after areas of Sicily's eastern coast, we offer for sale an exclusive agricultural property located between the elegant towns of Santa Tecla and Stazzo, a short walk from the Sanctuary of Our Lady of Fatima and in the immediate vicinity of renowned accommodations in the Acireale area.

A place where nature, beauty, and opportunity blend harmoniously, designed for those who dream of turning an investment into a life project.

The property extends over 5,250 m² of agricultural land, characterized by a private, fertile setting surrounded by greenery, ideal for high-quality crops, organic production, sustainable agriculture, or for launching a business related to wine tourism, olive oil tourism, or rural hospitality.

The property includes a warehouse of approximately 38 m², perfect for storage, a workshop, or an operational support point for any agricultural or entrepreneurial initiative.

This property represents an extraordinary opportunity for:

Agricultural entrepreneurs looking to develop or expand their business; investors seeking an asset destined to increase in value over time; experiential and sustainable tourism operators; and Italian and international buyers fascinated by the idea of living and investing in one of the Mediterranean's most iconic areas. Its location is one of its strengths: immersed in the quiet Sicilian countryside, yet just minutes from the sea, the center of Acireale, the main services, and the most popular tourist destinations of the Riviera dei Ciclopi.

It is not simply agricultural land.

It's a space where you can imagine a new project, cultivate value, and be inspired by the light, scents, and colors of authentic Sicily.

For information or to book a viewing, contact us. We'd be happy to help you discover a property that combines nature, charm, and investment potential.
